

FPS™

Premium Winter + Cetane DIESEL FUEL ADDITIVE

FUEL PERFORMANCE SOLUTIONS

FPS Premium Winter + Cetane is specifically formulated for use in all types of diesel fuel, including Ultra Low Sulfur Diesel (ULSD). This additive contains less than 15 ppm sulfur, meeting the EPA requirements for use with ULSD. It is an ashless, multi-functional additive which provides significant, money-saving performance benefits when used as recommended.

FPS Premium Winter + Cetane contains cold flow improvers and de-icer for cold weather operability, new advanced detergent package and cetane improver for significantly improved fuel economy and drivability of diesel powered equipment.

Superior Cold Weather Protection

- ✓ Disperses water and keeps it from freezing. Contains no alcohols.
- ✓ A lowered cold filter plugging point of 15°-25°F below the fuel's cloud point.
- ✓ Inhibition of stable emulsions of fuel and water.
- ✓ Contains wax modifier, inhibiting formation of large wax particles.
- ✓ Reduces fuel gelling and inhibits icing.
- ✓ Reduces or eliminates the need to blend with #1 diesel, saving money.

Fuel Economy & Cetane Boost

- ✓ NEW High Pressure Common Rail Detergent to prevent sticking injectors.
- ✓ Contains a high level of detergency to clean up injectors and keep them clean.
- ✓ **Improves fuel economy performance up to 5.0%.**
- ✓ Boosts cetane up to 2 points or more for faster starts and improved combustion.
- ✓ Prevents loss of engine power, which results from incomplete combustion of fuel.
- ✓ Passes Peugeot DW-10 test for injector clean up performance.

Reduces Filter Plugging

- ✓ ASTM D2068 proves Biodiesel and ULSD filter plugging is reduced by 39.7%.
- ✓ Decreases Asphaltene plugging by 14.9%.

Lubricity

- ✓ Increases lubricity - especially beneficial when using ULSD, giving protection against wear for injectors, fuel pumps, upper cylinders, rings and valve train.
- ✓ Exceeds lubricity standard in ASTM D 975 as well as the stringent Engine Manufacturers Association (EMA) specification.

Emissions

- ✓ Reduces black smoke by up to 93%.
- ✓ Decreases NO_x, hydrocarbon, carbon monoxide and particulate matter emissions.

Stability & Moisture Control

- ✓ Doubles storage stability and delays oxidation.
- ✓ Decreases risk of thermal degradation of fuel.
- ✓ Gradually removes water from storage tanks.

Recommended

Treatment Ratio:

One gallon of **FPS Premium Winter + Cetane** treats 1000 gallons of diesel fuel.

Package Sizes:

16-oz. Pint; 2.5-gal Jug; 55-gal Drum; Bulk Tote
